Re: Worship Services Led by Faith and Ed McCutcheon

To Whom it May Concern:

This letter is to give a resounding "Yes!" to all who wonder, "Should we consider having Faith and Ed to our church to lead worship for us?"

The McCutcheons do a marvelous job of leading a church body into God's presence. Also, they are well-polished musicians who bring their own sound system with them and set it up themselves. When they were with us at Eagle's Wings, they worked well with our violinist, who was the only member of our regular worship team not away that Sunday – and they made it seem effortless.

I know that every pastor appreciates when someone can come on board as a guest and work harmoniously with all of your people! It is a precious resource that they are willing to work with any congregation and are not concerned about the level of remuneration. They are truly servants.

I heartily endorse having them come in to lead when you have a worship leader away, and also to come in to your church to give a fresh breath of the Holy Spirit!

They are one more reason to thank God for the special thing we have going at the Pennel District of the Assemblies!

Sincerely

Pastor Dan O'Neil
